

Thomas	Heiman	If you don't save the neutrality of the internet, you will be shutting us all down, locking up the freedom to communicate and share EQUALLY. Humanity is reaching for answers. DO not allow the powers of greed and control to shut us out.
Brook	Heimbaugh	
Nancy	Heintz	
Angeline	Heisler	Don't make the rest of us second class internet users.
Barbara	Heisler	One more hit on the common man. It's becoming the rule of thumb for this country. Money always wins. I thought the FCC was created to make sure communication access was there equally for all, not the highest bidder gets the best communication.
Bernard	Heisterkamp	no fast lane for those companies that can pay more. It is a slippery slope towards content control. Classify internet providers as a utility, like the phone company and the electrical power company.
Wendy	Held	Please keep the internet NEUTRAL. Do not let money determine speed and content. This may be our last chance at free speech!
Michael	Held	The Internet was originally a governmental project which allowed communication around the world. Now, the FCC is making a decision whether to allow large ISP's to make their own judgements on how much they will charge for their services.
John	Helduser	This country is going to hell in a handbasket because those with the most money and power wield too much influence over government officials. Help put a stop this by keeping the Internet open and equal for everyone.
Liz	Helenchild	
Carol	Helgeson	NO to controled internet.. We have enough contol in our lives now. NO MORE>
Mary	Heller	
Sascha	Heller	
Paul	Heller	what another terrible idea .Dismantle America and sell her piece by piece to the highest bidder all at the expense of the common citizen.When will real Americans the millions of us who work hard to make this a great country get our nation back ?
Vikki S.	Helperin	
Mary	Heminger	Do not let the fast lane plan go forward. It will hamper our right to information and will allow those with money to control the internet.
Tana	Hemingway	
Michael	Hemmelgarn	
Rodney	Hemmila	
Barbara	Henault	newspapers are dissappearing.....now there are those who would make it inaccessible to many of us who cannot afford to pay the even greater fees that would be required . Is this the goal - an even more ignorant, uninformed citizenry?
Joel	Hencken	
Lisa	Henderson	Real net neutrality is what I need. I demand to be able to access alternative, non-profit, and independent voices at the same speed that I access major telecom and cable offerings online.
Julie	Henderson	
Doug	Hendrick	
Diane	Hendricks	The internet isn't just for entertainment. We get our bills and pay our bills. My granddaughters school work is online on a laptop provided by the school. Our lives are online. It is not entertainment any more. it is phone and electric important.
Dawn	Hendry	
Mr. James	Heng	I do not want to see the internet split up to give special interests priority on access to speed.
Erik	Heng	Please keep net neutrality. Keeping net neutrality is essential. Do the right thing for the America business.
Adele	Henkel	
William	Hennig	Hand the internet to the %1...are you joking?
William	Henning	Please keep the net neutral to all!
Roy	Henock	
Lyle	Henry	Please don't push any type of partial net neutrality. The internet needs to entirely free of pay to play or special treatment for some.
Harold	Henry	
Michael	Henry	
Morgan	Henry	
Martha	Henry	
Mary Ann	Hensel	Let's keep the internet fair and equal for all.
The Rev Charles H	Hensel	
Chris	Hensley	Net Neutrality is needed. Corporate profits should not be considered.

John	Herbert	stop working for the corporations. you are here to get the public the best, most affordable service possible and to protect us. No storage of our private information. No sending info to the government. Access for everyone at the same rates.
Jessica	Herbert	Swift, unfettered internet transmission should be the right of all American's --- not a chosen few high bidders. Please do the job you must do to ensure Real net neutrality.....This is your time to decide the right course for the internet going forward.
Judith	Herbert	
Bridget	Herbst	No! No! No! Despite the Supreme Court's faulty interpretation of personhood, the internet belongs to THE PEOPLE....not the "corporation people". REAL net neutrality is essential for communication between REAL people.
Martin	Heresniak	I am thoroughly opposed to allowing internet providers to sell fast lane services. My Verizon service is already spotty in evening hours and I would welcome FCC/Congressional investigation as to why that is so.
Lynne	Heritage	Keep the field of internet speed levels. You don't give preference to any TV or radio stations, so priority should NOT be given to anyone. In a democracy, everyone's voice and internet speed speed should be equal.
Peg	Herlihy	First took my free TV away so someone could a wildly enormous profit at a cost to the little guy. Now you want to alter the internet as we know it and allow others to dictate what speed and what site we can use at an increase cost. Don't let this happen!
Patricia	Herling	
Bill	Herman	We need REAL net neutrality!
Kate	Hermann	We need REAL net neutrality!
Thomas	Hern	
Catherine	Hernandez	We should have me neutrality. It should be equal for everyone.
Anne	Herndon	
Ana	Herold	
Lynne	Herr	Fast internet is critical to modern education. Please protect the interest of schools.
Ana	Herrera	
Dianne	Herrick	
Kate	Herring	The internet shouldn't be bought and sold to the highest bidder. Let it be a place where we can all access information whether we paid the "right" people or not!
Robert	Herron	The I see it is Today The Internet would be covered under our Bill of Rights - 1st Amendment.
Kay	Herron	We need network neutrality! Anything else is unfair to the people.
Steve	Hersch	Keep the internet for people, not corporate interests.
Faith	Herschler	
Sarah	Hershey	
Lyda	Hersloff	I have an international small business. I use the internet to communicate with potential clients. Please support internet neutrality, my business can't advantages to the "big guys:, Thanks, Lyda Hersloff
Edward	Herstein	
Scott	Hertel	Some folks can't rest until corporations control everything.
Barbara	Hertzberg	Maybe Congress should take a look at what the so-called "giants" of the internet are doing by allowing pop-up ads to interfere with the ordinary user, in ways that are sometimes impossible to escape.
David	Hesla	
Judy	Hess	my rights to free speech is just as important as the Koch brothers, let freedom ring
Lauren	Hess	Please keep the internet open and free.
John	Hess	
Robert	Hessel	
John	Heuman	The proposed legislation is anathema to a democracy. Hopefully the FCC will refuse to be party to its already threatened existence.
Patricia	Hewitt	
Paul	Heydemann	
Sharon	Heyen	Please DO NOT allow corporate telecom titans to sell fast lanes online to the highest bidder. Because of cost, I have the slowest Internet service offered by my provider and I don't wish it to be any slower.
Thelma	Heyer	
Jay	Heyman	No fast lanes! Internet should be a public utility!
John	Heyneman	In a modern world without true net neutrality there can be no democracy.
daniel	heys	
William	Hibbs	
Steven	Hibshman	We need to protect access for all.

Rebecca	Hickey	This is censorship based on wealth! I can decide for myself what I want to see so do not allow money to set the rules!
Cheryl	Hickman	
Elizabeth	Hickman	
Leland	Hicks	If the FCC is looking to shut the economy down for the powerful few, then allow multi-tier access and see how these ramifications will turn this country into a 3rd World digital status. Imagine, how mobile device sales will slump...think about it,
James	Hicks	The middle class is taking it on the chin. The proposed bifurcation of the web into Big Business vs. The Rest of Us is another example of how the big guys, the rich guys are preferred by government regulators. JMH
Cornelia	Hicks	The people through Taxes afforded Government the opportunity to build the Internet. It is not for corporate telecom titans. Keep it open to the people, not just corporations who can afford to pay for bandwidth. The Internet should be for We the People
Robert	Hicks	
Matt	Hicks	
Jerry	Hicks	
Laurel	Hieb	
L.D.	Hieber Jr.	NO internet fast lanes for the few
Charles	Higgins	
Andrea	Higgins	
Ron	Hildebrand	The Internet is a de Facto utility. It has been since not long after it's inception, and should not be sold off to the highest bidder. Corporate interests are taking over our country, and you are proposing to help them.
Timothy	Hiler	Do not allow "fast lanes" to be created and/or sold. Please keep the internet neutral.
Nicole	Hilkovitch	
Karyn	Hill	End users already have the option to pay more for faster internet. Allowing the ISPs to also force businesses to pay more or their sites will be slowed means you're allowing them to double-bill for the same faster traffic. We pay enough already.
Ginger	Hill	Is this still the USA? Let freedom ring!
Martha	Hill	Please support true net neutrality and disallow major telecom and cable companies from controlling what the American people can see and say online. This is crucial to our democracy.
Mark	Hill	The idea of two speeds is so wrong. It gives an advantage to the rich or well connected. It means there will be less opportunity for small businesses and individuals. OUR COUNTRY GREW STRONG WITH OPPORTUNITY FOR ALL. PLEASE KEEP IT NEUTRAL!!
Bon	Hill	The internet is for everyone to share. We live in a democracy and all of us are equally entitled.
Amalie	Hill	There is no reason to limit anyone's access to the Internet. It's now open to all and should remain that way regardless of how much money or influence is involved. It's necessary to keep all communications open and available for all.
David	Hill	
Leonard	Hill	
Jennifer	Hill	
Frank	Hill	Why do you want to close down knowledge to the average worker?
Kristen	Hilliard	
John	Hilliard	You have been entrusted to protect the American people, not to turn us into slaves of corporations and second class citizens. We do not need any more inequality in the access to information or a two-tier Internet.
Dwight	Hilpman	Please do not enrich Comcast, AT&T and the other telecoms who are profiting while our cable bills skyrocket. Net neutrality means innovation, faster service and great feedback for start-ups. My business could fail.
Cy	Hilterman	Since when does an individual in the United States have less "pull" than organized business? We all have some business on the Internet be it private or business related. Do not take away this freedom from us.
Carol	Hilton	The internet was designed to be free for all to use at the same rate for basic communication purposes.
Glenda	Hilty	Leave the internet alone. It works well for all of us just the way it is
Susanna	Hinant	
Lanier	Hines	
Clayton	Hinman	Creating "fast lanes" is more like detouring the bulk of America's users and verdant cottage industries to a do-nothing world of slow and dreary. It is highjacking conversations and I'm four square against it.
Walter	Hinman	Get out of bed with the big corps...save the little guy
Joan	Hinshaw	

Zoe	Hipp	
Kevin	Hipp	We need REAL net neutrality.
Linda	Hipsher	IT'S THE RIGHT THING TO DO.....
Bonnie	Hirai	We need REAL net neutrality. Look out for the people for a change instead of the big corporates!
Paul	Hird	
Catherine	Hirsch	
Carol	Hirth	I support an open internet-equal access for all, not favoritism for those who pay.
Dorothy	Hirvela	
Charles	Hitt	Think of your legacy.
Hildegard	Hix	If we wish this Democracy to work, we must keep the internet out of the hands of the communication giants. WE MUST have absolute net neutrality
Ron	Hobart	Equal Internet access is paramount to the advancement of communication, understanding and peace on our planet. That alone makes the case for keeping the internet open to all. Different levels of access would only divide us further.
Kelly	Hobbs	I want REAL net neutrality. Time for the FCC to stand up for everyone.
Robert	Hobbs	Leave the internet as it is, equal access to all.
James	Hoben	The richest must not control our critical public resources - including the best internet. The internet is the air of modern America
Brian	Hoberman	I urge you to support real net neutrality. Internet access should be treated like any other utility, without regard to its content provider. Thank you.
Marsha	Hobratschk	We need REAL net neutrality.
Donald	Hobson	Please stop the large corporation and their wealthy supporters from gradually taking over the services intended for everyone. Stop the take-over of the internet!
William	Hodapp	PLEASE! Do not allow big corporations (Big Money) to subvert the original intentions of the internet. I am one of the "Small" people who depend on the federal government to protect my rights from the well organized corporations.
Elizabeth	Hodes	
Robert	Hodge	
Glenn	Hodges	This is a sell-out to a few big corporations and a slap in the face to the general public.
Barbara	Hodges	this is only one more step to make us a corporation owned society
David	Hoefer	KEEP FREE SPEECH ALIVE
Marcella	Hoeflein	In cases where the welfare and education of the people is a priority, it is prudent to err on the side of more freedom for John Q. Public rather than less. Don't let the wealthiest few set these types of hurdles. Keep the Internet freely flowing for all.
William	Hoelzle	DO NOT let the mega corporations like Verizon and Time Warner charge for "fast lanes" on the Internet. The World Wide Net must remain available to all users.
Marilyn	Hoff	
Jeff	Hoffman	Internet service needs to be regulated similar to electricity, gas, or water. Everyone needs equal access at regulated prices.
Steven	Hoffman	The FCC should NOT adopt rules that would allow giants like Verizon and Time Warner Cable to sell fast lanes online to the highest bidder. Fast lanes for the few mean slow lanes for most of us!
Tom	Hoffman	
Gw	Hoffman	
Caitlin	Hoffmann	Don't be a sell out.
Mikel	Hogan	Dear FCC, protect real net neutrality--no multiple systems with fast lanes. Real net neutrality is essential for our democracy!
Ellen	Hogarty	I am extremely disappointed in the FCC for allowing all these new developments to happen--Comcast buying Time-Warner as well. I do hope that wiser heads will prevail and will stop this nonsense. Who does it help, other than the corporations involved?
Paul	Hoggard	
Chris	Holbein	
Joshua	Holden	
Anne	Holder	This kind of variability is NOT what founding settlers had in mind for universal access to information.
Karla	Holding	
Kai	Holland	
Kimberly	Hollbrook	
Don	Hollingsworth	Please do not give for-profit corporate entities a monopoly opportunity absent public utility controls as now known with the electrical services providers.
Jeffrey	Hollman	If the FCC bifurcates the Internet into two lanes, they will continue the division of this country into rich and poor. DO NOT ADOPT ANY POLICIES THAT DO OTHER THAN ASSURE REAL NET NEUTRALITY.

Richard	Hollman	The internet should be classified as a public utility. It is essential in order to create a fair market with efficient and inclusive competition, just like roads and bridges need to be available to all. Lets not guarantee a lack of social mobility.
Allen	Holloway	An open Internet is now the standard, and is ESSENTIAL to the future of this country!
Sean	Holloway	Just like nobody can buy a license to drive 100 MPH on the interstate highways, nobody should be able to buy influence over how fast a connection somebody else has.
Deborah	Holloway	Please support net neutrality for all.
Richard	Holloway	We the people demand a level playing field. A tiered platform will inevitably be subject to abuse resulting in dominants of We the People by the few resulting in a corporatocracy.
Ann	Hollyfield	Free speech literally means that.
Mary	Holm	This would not be at all fair, and you know that in your head, your heart, and your gut. The FCC should be doing what is best for the American people--and there is no question as to what is best. Do the right thing!
Larry	Holman	The internet should not be limited to those with wealth.
David	Holmquist	
Robert R.	Holt	
Helga	Holtmann	I strongly support net neutrality, and oppose any attempt, corporate or otherwise, to abrogate or infringe on it in any way!
Barbara	Holtz	Please allow us to keep our freedoms! What is happening to America?
Dorothy	Holtzman	
Cheryl	Holzle	Our tax dollars paid for the development of the internet. The job of the telecoms is to provide the service, not control the content. Real internet neutrality is the only acceptable outcome.
Michael	Holzman	Are you shitting me? Why would you allow anyone that control over the internet? What about us regular folks? This is just wrong.
Catherine	Holzman	
Liz	Homer	There is no reason to believe that selling the fastest internet to corporations will be unfair to average systems. We have no history that would prove otherwise AND YOU KNOW IT.
Johnathan	Hommel	The Internet is the last true virtue of free speech. It is the only avenue where people can express themselves openly. The net should not only be a place for the affluent , every American deserves to use the internet without fear of being gauged
Don	Hon	NO fast lanes!
Ellen	Hone	Unbelievable!
Kim	Honeychurch	
Hannah	Honeyman	NONONONON
Faye	Honorof	I URGE YOU TO PLEASE PROTECT NET NEUTRALITY!!!
Lanlan	Hoo	Do your job, protect REAL net neutrality. Don't erode our democracy even more.
David	Hoobler	I am strongly opposed to the new regulations put forward by the FCC concerning the Internet. This is a proposal for an Internet for the 1%.
Jason	Hoobler	I wonder how radio digital packet services and wireless will take to the internet rules if they are found not to be net neutrality's.
Surya-Patricia Lane	Hood	For profit companies and corporations must not be allowed to control the internet. It does not take any kind of imagination to know what will happen if they do.
Adele	Hooley	Please protect net neutrality. for citizens with occupations that help run the country, but with moderate means. WE are counting on your sense of fairness!
Eric	Hooper	Protect Net Neutrality.
Janet	Hoover	
Melissa	Hope	
Barbara	Hope	We don't need any more elitism.
Lindsay	Hope Kern	
Alexandra	Hopkins	
Lyn	Hopper	Free markets require equal access for all.
Angela	Horan	You are suppose to be a government of the people , by the people, for the people: start acting like it & so what is best for the people of the United States not Big cooperations. DO NOT ALLOW fast lanes for a few!!!!
Janice	Horn	Keep equal access to the Internet for all people and businesses.
Ta'Shanne	Horn	
James	Hornby	Don't allow this fast lane merger. It will effect internets speeds and only those that can afford the extra cost will be able to acquire a faster speed, no matter how they justified it, even though I am a subscriber. Keep the net neutral.
William	Horne	
Christopher	Horner	
Clifford	Horowitz	

Robert	Horowitz	
Richard	Horowitz	
Robert	Horton	Fast lanes are anti American and a insult to every day Americans,
Martin	Horwitz	Net Neutrality IS the new First Amendment. Without it we may as well not have a first amendment. It is THAT important. Do you get it?
Marilyn	Hosea	To remain a Democracy, it is essential that we all have equal access to freedom on the internet. Money should have nothing to do with our individual ability to be educated and useful on the internet.
Larry	Hosek	
Ruth	Hosek	
Graham	Hoskins	I am very opposed to this power grab by big corporations! I vote an adamant NO!
Howard	Hoskins	The fast lanes belong to all of us, not just the highest bidders with the most money. Don't tamper with what's working!
Anne	Hostage	Please do not allow giant companies, such as Verizon, Time Warner and others to sell fast lanes to other big companies, thus leaving out Small users.
Ilene	Hosterman	I knew congress was controlled by big money but thought maybe some of the government was honest and believed in people rather than boot lickers to the rich. We need net neutrality not the rich profiteering!
Carl	Hosterman	Net neutrality benefits everyone who uses the internet, why would you want to change that to pay greedy companies?
Gene	Hottel	so much for net equality!
Natalie	Houghton	No elitism (big money owning access privileges) in the internet. Make it a utility; maintain equal access for all.
Cara	Houlihan	The internet is part of the public commons and should not be used to favor corporate interests. Our economy relies on it, or education system relies on it and its key to individual forms of expression and exploration. This change is needless.
James	House	True net neutrality is needed to encourage innovation, a vibrant economy, and most importantly, freedom of speech and open communication.
Gerard	Houser	
John	Houy	Please don't screw us like the Supreme Court is doing. No more fast track for the fat cats.
Robert	Howard	Enough of corporations being given more and more power by OUR own government. Leave the Internet open and working as it now is!
Patricia	Howard	I support net neutrality. The net was not created to serve powerful businesses at the expense of the rest of us.
Gloria	Howard	If the FCC's plan to allow "fast lanes" for the few (1%?) goes forward, the rest of us will suffer. The deep-pocketed will pay to move their online content at top speed, consigning nonprofit, independent and dissenting voices to the slow lane.
Juliana	Howard	Somehow, let something in this country be available to all, no matter your income level. The internet should be open.
Eliza	Howard	
Carl	Howard	
Laura	Howe	
Michael	Howerton	
Abigail	Howes	This catering to huge corporations in expense of the people has to stop NOW!!! Net neutrality is a form of free speech as most media is now over the internet. Why should rich corporations get to run everything and get a free ride while we pay???
Sally	Howlett	Don't sell out the people with the FCC plan. We need to have real net neutrality.
James	Howlett	The internet was designed to be open, it is open, it should remain open! DO NOT ALLOW CORPORATIONS TO BUY THIS SOURCE OF COMMUNICATION!
Ann	Howley	
Michael	Howton	
Judith	Hoy	Having access to information, fast and accurate, is critical to our democracy which demands an educated voting population. To let corporations sell and advantage to the rich who can afford to pay extra is discriminatory and cannot be allowed!
Mary	Hoyt	Don't allow the few to take this over.
Jennifer	Hoyt	Please, keep the internet neutral
Lindsay	Hoyt	
Zdenek	Hrubec	Had the proposed rules been in effect from the beginning of the Internet, the Web would not be anything as effective as it is now. Keep the Internet open and free.
Michael	Hubbard	Leave the Internet free and uncensored!
Benjamin	Hubbard	The open Internet has worked wonderfully and kept all users on an equal footing. This is democracy at its best. A two-tier system would be unjust and unacceptable.

Patricia	Hubbard	
Paul B	Hubbard	We need REAL net neutrality. Don't let big business screw us again.
Richard	Hubbell	Big cable & telecom companies should not be allowed to control the internet for the sake of profits.
Charles	Huber	
Niles	Huckabee	
Julia	Hudgens	
J	Hudson	As an IT professional, destroying Net Neutrality would significantly negatively affect both my career, and my employers business. Net Neutrality is what caused the internet to be what it is today- destroying it would destroy the internet.
Nori	Hudson	
Ron	Hudson	
John	Huerta	Dear FCC, I live in rural W.V., where monopolies control access to the internet. You favoring the wealthy in paying for fast speed, will be at the expense of the poorer folks who will not be able to pony-up the \$\$\$ for the faster service.
Michael	Huerter	
Terry	Huey	The internet should not become something that is fast and convenient for the wealthy people and corporations but rather should be fast and convenient for everyone!
Patricia	Huff	we need real net neutrality.
Glenn	Hufnagel	
Barbara	Huggins	
Bonita	Hughes	elitist favoritism doesn't work in democracy
Carolyn	Hughes	there must not be several layers of paying for access to the internet. Changes will be a violation of free speech.
Judith	Hughes	
Frieda	Hughes	
Kimberly	Hughes	
Curtis L.	Hughes	
Curtis	Hughes	
Jane	Hughes Gignoux	
Andy	Hulett	
Danny	Hull	Public field hearings for real net neutrality. Dear FCC: I urge you to schedule large, open public field hearings on net neutrality before September. Please support real net neutrality that bans pay lanes and classifies the internet as a public utility.
Tim	Hull	
Daniel	Hulseapple	Why do you want to give such illogical power to companies that don't even give toward paying your salary. The Internet is a public entity; it cannot be owned or used purely for special interest at the expense of all others.
Donald	Hummrich	
John	Humphrey	I have been trying to get Verizon to fix a problem I have with their telephone system for over 10 years, and it still isn't fixed. That is what we have to look to if Verizon can charge for internet, more problems, less fix.
Thomas	Humphrey	
Susie	Humphreys	Tax monies spent on developing the internet should be taken away from free public use and sequestered in big corporations which are NOT people.
Shiu	Hung	
Deborah	Hunsley	It is the FCC's responsibility to maintain net neutrality in overseeing this important public utility.
Catherine	Hunt	Keep the internet free and open; reclassify the internet as a public utility. Do not allow telecom and cable companies control the internet and choose fast and slow lanes. American taxpayers paid for the internet and we should benefit.
Ann Murphy	Hunt	
Richard	Hunt	
Mary	Hunter	I will be unable to afford the internet if the price for it goes any higher. With one company owning the internet they can charge anything. Not fair.
Elizabeth	Hunter	
Stephanie	Huntington	
Carol	Huntsman	
Patrick	Hurley	An educated electorate is basic to democracy. Equal access to information is basic to an educated electorate. Please, do not degrade the open internet.
Carolle	Hurley	
June	Hurst	DO NOT allow the major telecom and cable companies to control the internet!!!
Amelia	Hurst	

Majayura	Hurtado	Don't forget the future...the children need Internet access to further their learning and have equal chance among their peer to move ahead. Don't forget about the children!!!
Gerry	Hurtado	Please save the Open Internet for users like me. Thank you.
Vanessa	Hurtado	We need real net neutrality! Money and politics should not influence how people connect to the internet or the content that we see. We don't need fast lanes for deep-pocketed companies. We need open internet with equal access for all.
Jeffrey	Hurwitz	
Arthur	Hurwitz	
Jason	Husby	
Robert	Huskey	All lanes of the internet should be fast. All vested interests should develop the internet infrastructure so the US has bandwidth superior to Europe and Asia. We are a joke in both speed and price. FAST LANES = CENSORSHIP. NO FAST LANES.
Bradford	Hutchingson	YO!, FCC, you work for WE THE PEOPLE, *NOT* "they, the Corporations"....
George	Hutchins	Please retain the existing format. It has been working well for all as opposed to the proposed few. Keep the creative pathways open.
Bryce	Hutchinson	Baby Powell tried to ruin the net and now telecoms are doing the same. FCC DO YOUR JOB we need net neutrality. Telecoms are ONLY carriers.
M Michelle	Hutchinson	The Internet is the public forum of today. It should not be used to continue the pervasive resectioning of our society into those who can pay extra for what is now free, and those who cannot.
Motoko	Huthwaite	As a retired teacher and editor, all my work on the internet is for nonprofit organizations like my church, the Raging Grannies, interfaith organizations, and peace action organizations to work for peace with justice for all.
Marianne	Huttlin	
Winfield	Hutton	Don't let big companies determine internet priorities, please.
Craig	Hutton	
Erik	Hvoslef	
Donald	Hyatt	
Gregory	Hyde	
Carol	Hyde	
Damien	Hyde	We need Net Neutrality with the fast lanes open to all and not for companies to make a profit off of. Do the work of the public, not just a handful of companies. Look out for OUR interests.
Frank	Hyden	
Rev. Alison	Hyder	A free, even and open internet is crucial to the functioning of world communication, commerce, and education. Please use your authority to protect it.
Janelle	Hyslop	Corporate America has taken so much from us already. Please let us keep the internet as we know it.
Claudia	i	
Katia	Iannacome	
Donald	Iannotti	THE INTERNET IS PART OF MY FREEDOM IN MY PURSUIT OF HAPPINESS, EDUCATION, KNOWLEDE... you cannot put it in the hands of just a few! This of course is ONLY my humble opinion... you ask your God!?
Erik	Ibsen-Nowak	
Greg	Ice	Putting control over the internet in the hands of a few deep-pocketed corporations instead of the people of this country would make it crystal clear that our "democracy" has been replaced by a corporate dictatorship.
janet	ievins	everyone knows the way to keep the internet free is to reclassify it as a utility--which of course it is and is meant to be. just because Big Bucks users continue to make demands does not at all signify that they should have their every wish met.
Vida	Ignatenkovas	Keep the internet open!!!
Matthew	Ikle	
Emile G.	Ilchuk	
Diana	Iltzsche	
Sandy	Imhoff	
Sonia	Immasche	Individuals, small nonprofits, small businesses all need equal access to the internet. Big telecom companies do not need to have one more thing they can dominate and ruin for most of the people of the world!
Darlene	Ingram	Leave the internet alone!
Lois	Ingram	The internet needs to be protected as the town square of the 21st century. All can speak, none have a higher box to stand on--or a bigger megaphone. Our democracy is at stake.
Jack	Inman	

Linda	Inness	The internet is crucial for commerce, research, education, genealogy, and many other aspects of modern life. There should be no restrictions or 'pay to play' conditions. Fairness for all users.
Donald	Ino	
Judith	Inskeep	The internet is democratic now and should stay that way. Please do not award privilege to those who already have too much of it. You should be representing ordinary people, not the wealthy.
Cathy	Insley	
Raymond	Intemann	Defend net Neutrality for all Americans! stop corporate greed !
Zareen	Iqbal	Any attempt to regulate the Internet, specifically as you attempt to do, heighten the voices of the powerful at the expense of others, surmounts to a gross violation of free speech and therefore unconstitutional.
Pam	Irminger	
Deborah	Irwin	
Steve	Irwin	We have enough monopolies.
Alan	Isaac	Net neutrality is the only way to avoid equating deep pockets with the right to speak.
Zia	Islam	
Muhammad	Islam	
Niara	Isley	
Ann	Isolde	The internet should stay neutral. Major telecom and cable companies will have too much control otherwise and this will undermine our democracy.
Miriam	Iverson	
Barbara	Ives	We need real net neutrality.
Dana	Ivey	An open internet is now a necessity of decent civilization. This is new requirement. Two tiers of service hark back to the Middle Ages, where some are Lords and some are peons. Do we still believe in democracy?
Cheryl	Ivey	
Pilar	Iwankiw	
Len	Iwanski	Please reject rules that would allow corporate telecom titans like Verizon and Time Warner Cable to sell fast lanes online to the highest bidder. Fast lanes for the few mean slow lanes for everyone else.
Shane	Izzo	We need REAL net neutrality!!!!
M	J	Quite frankly, if you want American innovation to continue in America, the start ups will need an open internet to compete. Without it there is no reason for cutting edge tech to be here. We already have slower internet connections than most.
Lorraine	J	
Bettencourt	J C	All of us pay to access the Internet. Major telecom and cable companies should not restrict my access, slow my speed of delivery or control what I see or say online. Please do not allow this to happen to the Internet.
Dave	Jackel	Don't change the internet ever. I mean it!!!
Roussie	Jacksina	Nothing like a strong kick to the belly by bullies. That's the effect this plan would have on us common folk (voters) on behalf of the privileged, the moneyed, who m intake wealth for talent and power for initiative.. My homie Thomas Jefferson would gag.
Tom	Jackson	Corporations do not an internet make.
Wanda	Jackson	I want my internet 2 be free, not taken over by large companies!
Larry	Jackson	Let the public decide what they want and not big corporations.
Marsha	Jackson	No thinking person who cares about society should consider allowing a small number of corporations to control the communication and education media of the present and the future. NET NEUTRALITY MUST BE PRESERVED FOR DEMOCRACY TO THRIVE!
Kenneth	Jackson	Our (NOT YOUR) internet is supposed to have been By The People, FOR THE PEOPLE. What part of the Word FREEDOM do you not understand? The FREE part or the DOM part?
Gail	Jackson	Please support "We the People" ... you know ... the common man, woman, child?
Carol	Jackson	Stop posturing about equality. An open net with all users equally treated is true, not your fast lane for the ultra-fortunate corps. and 1-percenters. Internet is a public utility, stupid!!!! Keep it that way.
Jerry	Jackson	This is a really bad and damaged line of thinking. Copetition is already a force that allows all access to faster speeds.
Annie	Jackson	
Craig	Jackson	
Elizabeth	Jackson	
Tom	Jackson	We want democratic service in a democratic country: treat everyone fairly and equally.
Carlyne	Jacob	Please do not make the internet another path for the likes of the Koch Brothers to own this as well as our government.

Louise	Jacob	This proposal will further divide and fragment our society. The Internet is the communications channel of this century. It should be as neutral and accessible as the post office (now obsolete), radio (when FDR communicated with a united nation).
Eric	Jacobs	This effort on behalf of Big Telecom is just another attempt to increase their wealth at the expense of freedom of information.
Stephen	Jacobs	
Andrew	Jacobsen	If you decide to help the greedy telecommunications companies get richer by ruining Net Neutrality then I will boycott them and recommend that every individual American do the same. They will understand losing business.
Eric Paul	Jacobsen	Regulate the Internet as public utility. Don't let Internet users be treated as consumers of cable television, whose choice has diminished as the cable companies' concentration of ownership has increased. Don't let the oligarchy control the Internet!
Kevin	Jacobson	A free and open internet for everybody is the only option. Not everything should be up for sale to the highest bidder. Let's keep democracy alive.

Kate	Jamal	
Brenda	James	Please do not let corporations take control of the internet!
Clarity	James	We must keep the internet an equal and open playing field.
Leland	Jamieson	Rule in favor of democracy, NOT the media barons, whose insatiable thirst for the gold in marketing would lead them to dig up the graves of their mothers and grandmothers for the wedding bands on their hands.
Matthew	Jamieson	the internet is ours , the public's , not yours to sell . privatize no more , you shills for "big" money . no more
Shunko	Jamvoid	
Barbara	Jandt	Please prevent yet another case of big corporations squeezing out the little guy. Don't let them get control of who gets what and when.
Jessica	Janecki	Please reclassify broadband as a telecommunications service so that it can be properly regulated to the benefit of American consumers, not telcom monopolies.
Bari	Janke	
Linda	Janney	
Laurence	Janquart	we need an internet that is not controlled by the rich/wealthy, big business, big organizations, conservatives. who are conservatives, anti-americans, they love themselves, would not help anyone
Ronald L	Jantzen	Your mission is to regulate the airways for the common good, not corporate interests. The internet is a public utility similar to telephone. Keep it open and neutral.
James	Janus	Open access no fast lane.
Robert	Janusko	Keep the internet free, as it was always meant to be.
Stephen	Janusz	Don not approve the proposal to enable fast Internet throughput for select companies. Thank you...
Toni	Jaros	
Carol	Jason	Please for once take the side of the common man and let us keep real net neutrality. We don't need to be squeezed for more money when we wish to have access to the internet. Carol Jason
Sitaram	Jaswal	The current system, neutral network, is fair to all independent of their financial resources and is working well for all. Please don't change it to make the flow of information income dependent. Thanks for listening.
Susan	Jaunsen	
Jack	Jav	Is the FCC bought and paid for like the GOP House members? Try doing what you know to be the right and fair thing. Surprise the nation.
Richard	Jaworowski	My internet speed is as low as I can afford right now. Please don't allow fast lanes. It can only mean poorer service for those of us in steerage.

Labovitz	Jeffrey	Selling privileged access to corporate content providers is the end of Net Neutrality. Serve the people first and foremost. Regulate the internet as a public utility.
Ernest	Jellinek	Please keep the internet neutral. The public is the majority and our voice should count the most.
Shelley	Jemison	Keep Internet neutral and equally available for all.
Matthew	Jendian	The internet must be available to everyone at the same speeds. Do not allow major telecom and cable companies increased control over what the American people can see and say online and control the speeds at which we the people have access to information.
Ken	Jenkins	
Ernest	Jennings	The internet is the only way we have been able to stay abreast of what our Government has been up to lately. The Media doesn't report the whole truth. Don't take that away from us.
Patricia	Jennings	
Jo	Jensen	Please don't allow the Big Bucks corporations to filter or curtail the freedom of free flow of information on the Internet.
Dennis	Jensen	The net should be equally available to everyone. The America we have known is being threatened by creating too much privilege to a few at the expense of the many. Keep the Internet open to all at the same speed.
Pamela	Jensen	
Marilyn	Jensen	
Robert	Jensen	We need a free and fast internet. With this proposal ordinary citizens will have limited response times.
Julianne	Jensenj	To save our democracy, we must protect net neutrality!
Harriet	Jernquist	
Paul	Jerome	
Don	Jessy	There will always be people and conscienceless corporations willing to use compliant politicians to profit from stealing public resources. The net was established with public funds for all of us, not to be sectioned off for private profits.

Christopher	Johnson	An internet not governed by Title II makes about as much sense as trying to regulate nuclear power using household appliance safety law. Simply nuts.
Anne	Johnson	An open internet encourages creativity and innovation and levels the playing field for all citizens. Equal access is an American quality. Don't let big money dominate it. Thank you.
Cheryl	Johnson	An open internet -free speech-is not for sale
Wayne	Johnson	Anything that slows or limits the availability of information is a threat to democracy.
Tom	Johnson	Do not give a free good away to the high bidders. The internet is a public good.
Ronald	Johnson	Do not let fascism take root here. You have the power to exercise a real moral superiority and do the right thing. Keep the internet free!
Martha	Johnson	Everyone needs the same access to keep the playing field even - it is the wish of the playing field! Majority of people favor open access and NOT tiered service. Please keep the internet free and accessible to ALL!
Jim	Johnson	FCC should re-classify major ISPs as common carriers and regulate them under Title II
Jon	johnson	I do not want a tiered service system relegating users to class warfare status for communication.
Carol	Johnson	I strongly believe in an support an open Internet that is also free,
Douglas	Johnson	I'm for internet neutrality. Don't the Bell segment the internet
Tracy	Johnson	Internet speed is what makes the experience fair. If how powerful you are is what dictates the speed at which information is gleaned, we have lost.
Karen	Johnson	It is outrageous that the internet is up for sale. It was developed to free the world and open it up for all of us. The FCC must stand up for the rights of the people, not multi-national corporations. The future of the internet is at stake.
Virginia	Johnson	It needs to stay just like it is. Leave it alone.
Wayne	Johnson	Keep the net neutral!!

Lisa	Johnson	Leave the internet alone. We pay for a service and it should be provided -- regardless of how much money the owner of a site can afford to pay.
Juli	Johnson	No restricting access.
Wade	Johnson	Open Access is the only fair solution.
Cathrine	Johnson	Please do not allow corporations to sell internet fast lanes. It is unfair and would give large corporations even more control that they do not need or deserve. The internet is for everyone.
Linda	Johnson	Please stop the FCC from obtaining undue control of the internet
Cheryl	Johnson	The FCC is considering adopting rules that would allow corporate telecom titans like Verizon and Time Warner Cable to sell fast lanes online to the highest bidder. I am not one of the wealthy few. Please don't sell me out.
Gregert	Johnson	The internet has become so important that it should be a public utility. Please keep it open and democratic; our country should not become more of an oligarchy than it already is.
Nathaniel	Johnson	The Internet is a free, open and uncensored communications channel; that must always be available to everyone equally
Cheryl	Johnson	The internet is the primary voice and source of the individual citizen and must remain equally accessible by all. Thank you for listening. Cheryl Johnson
Rheta	Johnson	The Internet is vital to our country and its citizens. We need REAL net neutrality. Reclassify it as a utility.

Todd	Johnston	I implore you to reclassify the Internet as the bi-directional communications service it has always been, and regulate it as such. The fraud of calling it a broadcast medium has gone on long enough!
Serena	Johnston	Net Neutrality is important in all its aspects. Those who are trying to bold their businesses, blogs, groups, deserve the same net neutrality as those who have already "made it," so to speak. Keep the net Neutral!
Leslie	Johnston	The proposed plan will have a disastrous effect on free speech over the internet. Don't let the rich and their wealthy companies monopolize traffic on the internet. The internet should be a place of ideas, not just commerce.

Ann	Jones	Equal access for all!
Jane	Jones	Fast Internet access for the few would mean slow access for everyone else, which would confine alternative, independent, and non-profit groups to a slow second tier. The Internet is critical to a well-informed public and equal access is imperative.
Basil	Jones	I am absolutely against fast lanes. Our lives and government are already controlled too much by corporate interest.

James	Jones	I am opposed to any rule change that allows telecoms and cable companies to buy higher speeds on the internet. Please keep true net neutrality.
Richard	Jones	It is essential that the internet be available to all and that commercial interests not be allowed to dominate use of limited bandwidth.
The Rev Allan B	Jones	Please deny fast lanes for the few, and preserve the open Internet. Thank you.
Janet	Jones	Please do not put more power into the hands of the ultra-wealthy. Every year the rest of us lose more of our already small voice.
David	Jones	Please keep the internet open to us as it is. I can not pay extra to access the internet. Thank you.
Kent	Jones	Please please please don't do this. It is wholly unnecessary.
Jeffrey	Jones	Please Save REAL Net Neutrality! Also leave the 600mhz band alone. Sell the 300-400 mhz band off for LTE and White Space Devices Please!
rebecca	jones	The United States and its democracy is still and always will be an experiment. Do not let it fail.

Marc	Kirschenbaum	
Bill	Kirton	
Emma	Kiselyova	We do need a real Net neutrality. The web has been conceived and supported by ideas and people who need a really open and fare space to communicate and to share the voices and spirit of all the people - perhaps the last and the only space for all citizen.
Stephen F.	Kislock Iii	It's We the People,.....
Jeffrey A.	Kisner	
Mark R.	Kissinger	Wall Sreet has shown how access gives advantage. An egalitarian Internet MUST remain if to promote human potential.
Suzanne	Kistler	Preserve net neutrality! Do NOT allow big cable and telecom companies to get fast lanes. S. Kistler
Franz	Kitzberger	Net Neutrality--Now and Forever!
James	Kjelland	I can't believe this is even being seriously considered.
Roger	Klaas	

George	Klaes	Without net neutrality we are all subject to having our voices censored by large corporations. Please keep the net neutral and protect free speech.
David	Klass	
Michael	Klausing	
James	Kleck	The internet should be a utility and ISPs should be common carriers.
Wayne	Kleeman	
Rea	Kleeman	We need an open internet access.
Karen	Klein	The Internet needs to be an equal playing field --- not class tiers based on wealth!
Mark	Klein	
Phil	Klein	
Linda	Klein	
Thomas	Klejna	
Darlene	Klingenberg	Please keep the internet equally available to anyone. Do not let special interests dominate.
ANTHONY	KLINGER	This is totally undemocratic. Essentially, it is similar to what airlines introduced dividing economy class by charging hefty surcharge for more comfortable seats. Appaling!
George F.	Klipfel li Cls Mt(Ascp)	
Dana	Klisanin	
Walter	Klockenbrink	
Darren	Kloomok	I have written so many times I begin to run out of words. Please don't further alienate the american population from american business. I begin to despair of our democracy.
Nina	Klooster	We need real net neutrality.
John	Klum	Please do not take any action that would adversely affect the average person's access to the Internet. The Internet belongs to us all, not to the fat cats. Do your job and protect the American people.
Robert	Knable	Save our internet all alike in access!
Stuart	Knappmiller	
Lucinda	Knaus	Net neutrality is democratic! As in Democracy.
Barbara	Knebel	Corporations have already taken so many rights away from citizens. All Americans deserve the same access to the internet. Our society is already based on who has the most money, why give the rich more when they have already taken so much.
Chris	Knigge	You have a responsibility to the citizens to keep this forum open. Thank you for this.
Jay	Knight	
Eva	Knight	
Donna	Knipp	
Kristie	Knoll	NET NEUTRALITY SHOULD BE AN INALIENABLE RIGHT FOR ALL AMERICANS!
Robert	Knouse	what the hell is wrong with this country
Eileen	Knowles	
Michael	Knox	About half the people I know with Comcast use their phone service, I use Ooma as a digital phone service over Comcast network. How is this not a utility, that needs to be regulated as such?
Robert	Knox	Incumbent carriers are the offspring of regulated utilities, with effective monopoly power in most of the markets they serve. Permitting price discrimination among content providers will further distort American communication markets.
Emmett	Knox	Stop it arse divot. Leave the Internet alone.
Victoria	Knox	
James	Knupp	ALL MEN AND INTERNET PARTICIPANTS SHOULD BE EQUAL. SAVE OUR OPEN INTERNET.

G D	Koch	
Robert	Koch	We need REAL NET NEUTRALITY!
Richard	Koda	
Michael	Koenig	
Laura	Koeninger	
John	Koerber	Back-end tiered pricing is de-facto yet insidious discrimination based on content. ISPs being or becoming market-dominating monopolies on their back ends obliges common-carrier non-discriminatory treatment -- all traffic being created equal.

Sister Theresa	Koernke	
Karl	Koessel	You have the ability to keep the Internet fair for all users. Please don't allow access to be broken into tiered fast and slow lanes, which would surely lead to money having more voice than people.
Edward	Kohls	Leave my internet alone. There are no problems so don't fix what's not broke. If your intent is to censor or restrict the internet you are interfering with my 1st Amendment rights. Get the message asshole.
Patricia	Kohnen	An internet "fast lane" is a terrible idea. Do not sacrifice internet parity for private profit.
Stephen	Kolb	Real net neutrality should make the internet look like a public utility. Every developer, marketer, provider and consumer of digital information should have the same access and speed without limits, based only on connection speed.
John	Kolego	
Ethan	Kolek	Net neutrality is vital for a functioning democracy in the present day. As a nation, we should consider the internet to be part of the commons. It harms everyone if the interests of corporations are placed above those of the citizenry.
Marilyn	Kolodney	What happened to our democratic process--equal access for everyone??
Daniel	Kolster	
Eric	Koltun	NET NEUTRALITY FOR ALL!!!!!!!!!!!!!!
Paul	Koluvek	As a senior citizen and all senior citizens we need to keep the internet neutral because we can not afford to pay more money for the internet services. With the higher internet cost it will make us second class senior citizens.
Carol	Kommerstad-Reiche	
Alex	Komoroske	Let's keep our nation in the lead as a techology center

Kaye	Koonce	
John	Koontz	Net neutrality has provided millions of users the opportunity to start businesses, get an education, do research and communicate with others around the world. Don't screw it up now for a few pieces of silver.

Vicki	Kopinski	
Burt	Kopito	This was born free; let it remain free
Jeffrey	Koppel	
Jay	Korinek	Just because you may be rich doesn't make your communication needs more important.
Meryle A.	Korn	"Privatizing" the Internet - which was developed by the US military using taxpayer dollars - would be terribly, terribly wrong! Please do not give away the Internet to boost profits for the telecom and cable companies.
Julie	Korn	
Frances	Kornfeld

Juretta	Koss	
Steve	Kossack	
Wayne	Kotaski	This is a declaration of that you are declaring Mankind your slaves. You have absolutely no right to do this!
Brant	Kotch	

James	Kottke	The internet is like breathing air. Everyone uses it and needs it. It should not be easier and faster for those with more money.
Johanna	Kovitz	
Alice	Kovler	This is a free speech issue that would give corporations even more power over the 99%. No other Western country has treated it's citizens in this despicable wave. The People won't accept it!
Thomas	Kowalski	Do not let the money grabbers overtake the internet, a profit is OK but not a total takeover. Please stop this from happening. Greed makes men think they are an Aristocracy! Let them know our republic is a Democracy!

cathy	kozak	The Internet is, and should remain, a free and open resource for all. Please don't allow a tiered system!
Josef	Kozaka	The internet does not belong to corporations.
Arthur	Kozakiewicz	The Internet deserves to remain open, and free. Giving the power to the cable companies will ensure the destruction of the Internet as we know it. They can and WILL abuse this power. Give an inch, take a mile.
Robert	Kozma	
Daniel	Kozminski

Neill	Kramer	
Margaret	Kramer	We who do not have deep pockets deserve to have fast lanes also!!!!!!
Steve	Kranz	
Alysia	Krapfel	Act on the behalf of the people, corporations are not people.
I.Martin	Kraus	Protect Real net neutrality as the Net is our most important Real Cultural Support System in the world. It keeps everyone on an equal playing field.
Jedidiah	Krauss	Is the United States going to be the land of opportunity or is it going to be the land of the haves and have nots? The internet is equivalent to roads or water. Everyone uses them and it is wrong to allow it's use to be commercialized.
Fred	Krauthamer	Open Internet access is the only way to go for better communication amnog peoples all over the world

Kathy	Kroll	Do the right thing!
Karen	Krongold	Please keep the internet accessible to all in an equal manner.
Walter	Kroon	
Mike	Krown	Not everyone can pay for fast lanes only; only the rich can do so. That places a burden on those of us who would end up unable to pay for good television.
Robert	Krueger	The People's money built the internet. All of the people have a right to equality in its access and use.
K	Krupinski	
Renee	Krupp	I want the open internet that our public tax dollars all helped to build. I do not want a two- or three- tiered internet based on deep pockets ---- read CORPORATIONS. Net Neutrality..... Yes!

Marge	Krupp	We can't let big money control the internet like it does our Congress!
Roberta	Kubelka	
david	kuchenbecker	
Donna	Kuck	This country is on the vision of each one of us having an equal say in the direction our form of democracy takes. But part of this equal ability to speak in this modern day is to have equal access to the means of communication. Thank you,.
Kathleen	Kuczynski	
Janice	Kuehn	It seems that every day we are losing more of the America we all love. Now the FCC is deciding whether to let the titans of the communication industry to go to the head of the line for special privilege. Please remember the loyal citizens.
Mary Jo	Kuffner	High frequency trading is already sucking all the money out of our economy - in my mind it is basically insider trading. Allowing them even faster access to financial data will only exacerbate the situation. Everyone should have equal access!

Daniel	Kuruna	
Celia	Kutcher	
Karen	Kutschenreuter	Why can't people just be fair anymore? Why do some people and/or companies feel the need to get ahead of everyone else and not care about the consequences? It's a very sad commentary on the human condition.

Alina	Labrada	

Sharon	Lacy	
David J.	Lafond	The FCC must NOT allow corporations to control the internet and the flow of ideas. Cheap, easy access should be the rule. IF the proposed new rules are implemented, we will be going backwards.

Danielle	Landgraf	I pay for my Internet access. Internet companies are just being greedy trying to get extra money from both ends.
Maggie	Landis	Dear FCC, It is time for the government to stand up to greedy corporations that are only interested in the all mighty dollar. The internet is a wonderful resource for a free society. Please don't allow the internet to be turned into a piggy bank for corp.

Marcia	Laris	Terrible idea to start this path. Save the open internet.,
Timothy	Larkin	I depend so much on the open internet, as I have major health issues and am on SSDI, so I research my disease and by having slow or impeded internet access would hurt my options for positive health.

Ken	Lauter	Net neutrality is mandatory for a genuinely democratic and equitable future.
Adrian	Lauterstein	The internet does not belong to you at the FCC. It belongs to the people. Remember when you stole the analog TV broadcast space? Now, digital broadcast is so terrible, almost nobody uses it. A big win for cable, and even dish is better.
Joan	Laux	Please keep the Internet "neutral" and do not allow the sale of "fast lanes" to ANYONE. This will advantage a few at the expense of the many.

Joe	Lazenby	The government is supposed to be for the common good. By letting the "fast lane" proposal be adopted the common man will have been done another disservice. Please do not let this happen.
Dale	Le Fevre	As a small businessman, I have come to need a fast internet. Without it, my business will not only suffer, it could easily put me out of business. Also, democracy has come to depend on the internet for citizen involvement in issues. I think this healthy.

Gerald	Lee	No mater what you do,you put it out from wherever you're coming from and you pick it up from wherever you're at.
Kate	Lee	Our airwaves are public for a very good reason-- they are meant to be used by everyone. Therefore, access must be evenly controlled so that ALL users have an equal share of our airwaves.
Lewis	Lee	Please don't capitulate to the Republicans and their donors the rich corporations. Please leave the internet an oasis of equality for all and not just those with more Money.
Chimey	Lee	The internet is free to all and not to be controlled by any big corporations!
Michael	Lee	The US has by far the most expensive web services for the bandwidth we get among the developed world. We should get the most cost effective service in the world first before the FCC considers giving any company faster service for paying.
Jay	Lee	
Peter	Lee	
Marilyn	Lee	
Karen	Lee	
Kaye	Lee	We need REAL net neutrality.
Jean	Leed	This is just one more example of allowing private companies to favor the wealthy so that the company can increase its bottom line. Don't let them do it.
Robert	Leeds	Treat the Internet like a utility. Everyone should have the same access.
